

Who We Are

Mothers For Democracy started as a grassroots protest and has blossomed into a nationwide organization pushing to restore the democratic values of **justice**, **equality**, and **compassion** through the political awakening of maternal power.

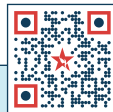

Our approach comes from all angles. We'll work to create progressive media to inform the electorate of the issues and facts, organize at the grassroots level with digital and in-person campaigns, boost voter participation with dedicated outreach, and support those who share our values to run for office.

We're committed to encouraging civic participation across all levels of government, from local school boards to the halls of Congress. **Too many leaders have failed us at too many levels. It's time to bring #MomPower and strive to fill that void.**

Our Mission & Values

As mothers and citizens, our core values rest upon protecting and strengthening our democracy via direct civic engagement. Finding creative ways to mobilize voters, whether it's going door-to-door, producing issue-based videos and ads, or on-the-ground voter registration, is at the center of our mission. Our values will only go so far as we take them, and we intend to get as many people as possible involved in the democratic process. In doing so, we can effectuate real change on issues like **gun safety laws**, **reproductive freedom**, and **education reform**.
